

WORKSHEET

LOOK AROUND YOU

Take a look at the solar plant, draw what you see. Can you label the different parts?
The expert on-site will be able to answer your questions.

TRUE OR FALSE

Are these facts true or false? Use the factsheet and the site expert to help you to decide!

- | | | |
|-----------------------------------------------------------|----------------------------|-----------------------------|
| Solar panels are made from a collection of solar cells | True <input type="radio"/> | False <input type="radio"/> |
| Solar cells use wind energy to produce electricity | True <input type="radio"/> | False <input type="radio"/> |
| Solar panels can be used to produce electricity for homes | True <input type="radio"/> | False <input type="radio"/> |
| Solar energy produces lots of polluting emissions | True <input type="radio"/> | False <input type="radio"/> |

WHAT HAVE YOU LEARNED?

Can you write down three things you have learnt today?
